

The Federal Communications Commission

Dear The Federal Communications Commission,

I am afraid that the flat fee proposal you are considering for telephone users could make my current phone bills too expensive. Under the flat fee proposal, people who make few long distance calls would pay the same as people or businesses that make many calls. This is unfair!

I only use my wireless phone for safety and I don't want it to become too expensive to own. Please reject the proposal to move the USF collection system to a flat-fee.

Sincerely, Carolyn Addy 83649 Addy Rd.
